

SHERLOGReporter

Hatch cover tightness testing & reporting
made easy with the SDT SHERLOGReporter App

Ultrasound
Solutions

SHERLOGReporter

Use the SDT SHERLOGReporter App to quickly create comprehensive hatch cover test reports and share them with principals in real time.

- 1** Create a survey for a specific ship and type of hatch cover.
- 2** Perform your on-site functional test and log test results.
- 3** Indicate leaky areas, whether spots or linear leaks, on dedicated hatch cover, window or door formats.
- 4** Assign one or more photographs to leak sites.
- 5** Synchronize your survey with the web platform.
- 6** Send or share your final hatch cover test report with principals or colleagues in real time.
- 7** Log-in to the SDT web platform to manage your surveys.

Manage your surveys online

Access and edit your data, prepare inspection, test and repair reports in real time.

Create reports

Create customized and high standard inspection and test reports.
